

## NORPEG™ H2400

Physical/chemical properties	Description	Test method
Appearance at 20±5 °C	white to yellowish waxy flakes	cl. 4.2
Color of 25% water solution, Hazen units, not more than	30	GOST 29131 and cl. 4.3
pH value of 5% solution, within	5-7	GOST 22567.5 and cl. 4.4
Average molar weight, within	2200-2600	cl. 4.5
Hydroxyl value, mg KOH/r, within	22-26	ISO 4326
Water content, %, not more than	0,5	cl. 4.6

### PACKING:

NORPEG™ H2400 is packaged in paper bags with polyethylene liner bags (the number of layers in paper bags is at least three), soft disposable containers MKR-1, L4-0.1.

### APPLICATION:

It is used in construction chemistry (agent for concrete softening, lubricating), other applications.

### SUPPLIER:

Zavod sintanolov LLC

606000, Dzerzhinsk, Nizhny Novgorod region, East industrial area, post box 22
