

MIXTURE OF PRODUCT OS-25 AND PEG – 4000

Physical/chemical properties	Description	Test method
Appearance at (20 ± 5) °C	Ceraceous flakes	cl. 4.2
Color 50% water solution in isopropyl alcohol, Hazen units, not more than	70	GOST 29131 (ISO 2211) и cl. 4.3
pH value of 5% water solution, within	5,0-7,0	cl. ISO 4316 and cl. 4.4
Hydroxyl value mg/KOH/g, within	30-38	ISO 4326 and cl. 4.5
Water content, %, not more than	0,8	ISO 760
Ash content, %, not more than	0,20	GOST 21119.10 and cl. 4.6
Average molecular weight, within	1475-1870	cl. 4.5

PACKING:

Big bags and 20 -25 kg four-ply paper bags with polyethylene liner-bags.

APPLICATION:

Nonionic surfactant, leveler for dyeing of textile materials, emulsifying, penetrating, antistatic agent and detergent at textile industry for manufacture of synthetic and glass fibers.

Supplier:

Zavod sintanolov LLC

606000, Dzerzhinsk, Nizhny Novgorod region, East industrial area, post box 22
