

**NORCHEM SLS (Alkylsulfate)**  
**CAS № 85586-07-8 - Sodium lauryl sulfate**

Parameter	Value	Test method
Appearance	Colorless or yellowish liquid, opalescence is acceptable.	Par. 4.2
Active matter, % by weight, not less than	28,0 – 30,0	GOST 30828 and Par. 4.3
Unsulphonated matter, % by weight, not more than	2,0	GOST 30828 and Par. 4.4
Sodium sulfate (Na <sub>2</sub> SO <sub>4</sub> ), %, not more than	2,0	GOST 28478
pH value of 10% water solution, within	11 - 12	GOST 22567.5 and Par. 4.5
Diethylene oxide, ppm, not more than	100	Par. 4.6
Transmission density, not more than	0,15	Par. 4.7

**PACKAGING:**

Steel barrels with inner layer, 100-250 liters. Tank-containers CKU-4-20 from stainless steel. When agreed with a customer another package can be used.

**APPLICATION:**

Anionic surface active substance in production of synthetic detergents, shampoos, liquid soaps, household and technical washing-up liquids.

**Producer:**

**Zavod sintanolov LLC**

606000, Dzerzhinsk, Nizhny Novgorod region, East industrial area, post box 22
